REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance:

the references of record neither reveal nor render obvious the recited combination including a successive approximation register, hereafter SAR, conversion cycle having first and second capacitor reference voltage sequentially switched in order to reduce transient signals.

U.S. Patent 6,707,403 to Hurrell couples high [34] and low [35] voltages to capacitor arrays [4/5], a differential comparator [27], and a SAR [42] in an ADC [1].

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Patrick G. Wamsley whose telephone number is (571) 272-1814. The official facsimile number is (703) 872-9306. An alternate facsimile number, (571) 273-1814, should only be used for unofficial documents.
